All UK Gilts are Tax free to non-residents on application. x d Ex dividend. Closing mid-prices are shown in pounds per £100 nominal of stock. Weekly percentage changes are calculated on a Friday to Friday basis. Gil benchmarks and most liquid stocks, are shown in bold type. A full list of Gilts can be found daily on ft.com/bond&rates.

Prospective real redemption rate on projected inflation of (1) 5% and (2) 3% (b) Figures in parentheses show RPI base for indexing (ie 8 months prior to issue and, for giltssued since September 2005, 3 months prior to issue) and have been adjusted to reflect rebasing of RPI to 100 in January 1987. Conversion factor 3.945. RPI for Jan 2012: 238.0 and for Oct 2012 245.6. D For those bonds indicated, with a 3m lag, the 'clean' price shown has no inflation adjustment. The yield is calculated using no inflation assumption. ‡ Running yield. Source: REUTERS Ltd.
